---

Brian,

You have requested analyses for Total Organic Carbon, Particle Size, and Total Suspended Solids. These 3 analyses are not available through the CLP Program. The EPA Region 6 Laboratory has an agreement with the TCEQ Laboratory and they routinely run these analyses for us. Unfortunately, the number of samples requested for Total Organic Carbon and Particle Size is too many for them to be able to accept. They will be able to accept the 37 water samples for Total Suspended Solids during the week of Sept 16.

Brian,

Do you have the contaminants of concern designated with the action levels required yet?

**Subject:** Lab Request Forms for Falcon Refinery RI Sampling Event

Good afternoon Christy

Attached are the sample request for the Falcon Refining RI sampling event. We are planning 3 weeks of sampling, the week of Sep 9, Sep 16, and Sep 23. Please let me know what additional information you need in addition to the attached files.

Thanks
